

## APA 75/74

**SKU:** AM016

### Product Description

The large class of Add-On Compactors from Ammann is built for the 10-tonne to 40-tonne excavator class and for applications where a strong compaction performance is required.

The plates deliver excellent compaction power that delivers impressive compaction results. Depths of up to 1 m, depending on the size of the excavator, can be reached in one go. This helps to significantly save time and resources compared to traditional compaction with vibratory plates.

The plates stick up by their high versatility in use and their robust design that makes them reliable and ready to go at any time.

## Weights & Dimensions

### Metric

Operation weight CECE \*

950 kg

A = Machine length

1142 mm

B = Machine width

740 mm

C = Machine height \*

1350 mm

## Technical specification

Frequency

36 Hz

Centrifugal force

84 kN

Required oil quantity

150 l/min

Required operating pressure max  
250 bar

Maximum back pressure  
10 bar

Recommended size of the carrier  
12-25 t

\* with mechanical positioner
